Ter verkoop aangeboden: grote thema-verzameling met extra's

*Een biografische postzegelcatalogus van 2060 medische wetenschappers:
de persoon achter de postzegel*

Een omvangrijke, zeer verzorgde, unieke verzameling biografieën van personen die iets hebben betekend in de medische wetenschappen EN die zijn afgebeeld op een postzegel ... alle specialismen, alle landen, alle eeuwen. Het geheel bestaat uit postzegels, enveloppen en een zestal paperback boeken (A4-formaat). Het is een zeer uitgebreide verzameling die met grote zorg is samengesteld.

De verzameling bestaat uit:

- 12 luxe insteek albums met 4720 postzegels en zegelvellen, 577 enveloppen. Alles gerubriceerd op alfabet van de naam van de wetenschappers. 168 zegels zijn gestempeld (3,2% vh geheel).
- Extra: 2 insteek albums met 1950 dubbele zegels
- Een doos met enveloppen (eveneens gesorteerd op naam)
- 6 paperback boeken met hoge resolutie kleuren afbeeldingen (op ware grootte) van de bijgeleverde postzegels etc, met biografieën van de betreffende 2060 medici.
3373 pagina's. Taal: Engels. A4-format. Alfabetisch op naam. Discipline index (Vol.1-3). Cumulatieve namen index. Papier 135gr MC silk-coated. Kaft: gelamineerd

De biografieën zijn uitgebreid, vakkundig, toegankelijk en informatief (de verzamelaar had een brede kennis van het medisch vakgebied). Zij bieden een kleurrijke inkijk in duizenden jaren ontwikkeling in de gezondheidszorg, - wetenschap en medicijnen. Tevens leuke inkijken in de levens van de wetenschappers levens.

De uitgifrechten van de boeken zijn onderdeel van deze verkoop. Alle benodigde bestanden zijn digitaal: postzegels zijn in JPG-formaat, de teksten zijn in WORD-formaat en de bestanden voor de drukker zijn in InDesign- en PDF-formaat.

NEW PUBLICATION: February 2019

More than 4,000 different postage stamps have been issued by some 230 countries depicting the portrait and/or full name of more than 1,400 different health care professionals and medical scientists.

This book (3 volumes) shows the vast majority of those stamps, accompanied by a more or less brief biography of the individual concerned. So this book is meant for people who are not only interested in a medical thematic stamps collection, but also in 'the person behind the stamp'. In a way this biographical catalogue gives an insight into medical history.

- 1,468 biographies
- 4,000* reproductions of stamps (full colour, actual size)
- 2,316 pages
- Paperback
- Set of 3 volumes, size A4

POLITICAL FIGURES

The Roaring Twenties

Two Constitutional amendments went into effect in 1920, turning the nation upside down. The 18th Amendment prohibited the manufacture and sale of alcoholic beverages, and the 19th gave women the right to vote. Prohibition backfired, leading to widespread disrespect for the law. A federal highway system was organized and the number of automobiles nearly tripled. Spreading electrification spawned the golden age of radio. The Roaring Twenties, as the decade came to be known, was an age of thrill seekers and heroes. In 1926 Gertrude Ederle swam the English Channel faster than any man had. The following year Charles Lindbergh flew nonstop across the Atlantic alone and Babe Ruth hit 60 home runs. The first feature-length film with talking parts, *The Jazz Singer*, appeared in 1927 and the first Academy Awards were presented in 1929. The prosperous times ended with the stock market crash of Thursday, October 24, 1929.

天下為公

辛亥革命成功推翻了清朝的統治，結束了中國帝制，開啟了民主共和新紀元，使共和觀念深入國人的思想中。同時使中國成為亞洲第一個民主共和國，對亞洲其他國家的民族解放運動產生影響。

CENTENARY OF XINHAI REVOLUTION 辛亥 革命 百周年

孫中山先生於一九零五年八月二日在廣州創立同盟會，推舉孫中山先生為總理。同盟會提出「驅除鞑靼，恢復中華，創立民國，平均地權」的綱領。孫中山先生首創了「民生主義」。

MILLENNIUM 1450-1500

1480. Leonardo da Vinci, renowned artist, mathematician, engineer, and scientist, designs the flying machine on the principle of air currents, but is unable to build a functional flying machine.

1455. Johann Gensfleisch, a German printer, is credited with inventing movable type. However, it was first used in 1469 when he produced the first printed book, the Bible.

1457. From 1457, Johannes's printing press was used to print the first printed book, the Bible.

1462. From 1462, Johannes's printing press was used to print the first printed book, the Bible.

1453. The Byzantine Empire's first dowry, the Golden Horn, was established during the reign of Constantine XI Palaiologos, which had been the most powerful in the Christian world until the 11th century.

1488. The Great Wall of China, built to defend against nomadic tribes, was completed during the Ming dynasty, between 1418 and 1449, when it was 14,000 miles long. It was built to protect the Chinese from the nomadic tribes of the north.

1479. Lorenzo de Medici was often referred to as "Lorenzo the Magnificent" by the people of Florence, who he protected, educated, and patronized. He was a powerful and influential ruler of Florence, and his patronage of the arts and letters helped to establish the Italian Renaissance.

1485. Henry VII established the English throne in 1485 and thus founded the Tudor dynasty. He was the first English monarch to be crowned in St. Paul's Cathedral, London, and he established the Tudor tradition of wearing a red and white checkered robe, which was later adopted by his descendants.

1497. Vasco da Gama was a Portuguese explorer who sailed from Europe to India via the Cape of Good Hope in 1497-1499. He was the first European to reach India by sea, and his voyage opened up a new trade route between Europe and Asia.

1497. Ferdinand of Aragon and Isabella of Castile sponsored Christopher Columbus's voyage to the Americas in 1492. Columbus discovered the Americas in 1492, and his voyage opened up a new world of exploration and discovery.

1497. John Cabot explored North America in 1497. He was the first European to reach North America, and his voyage opened up a new world of exploration and discovery.

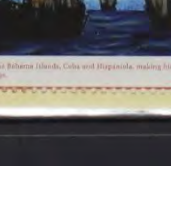

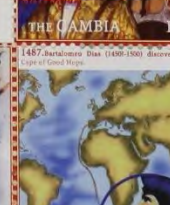

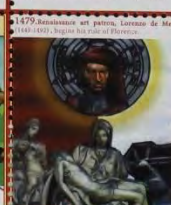

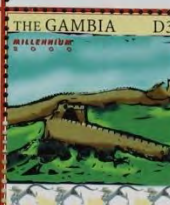

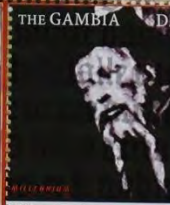

1455. War of the Roses was a series of battles fought by two rival branches of the Plantagenet dynasty for control of the English throne. It was the last phase of a civil war that began in 1455 and ended in 1485. The war was fought between the Yorkists and the Lancastrians, and it was a struggle for power and control of the English throne.

1497. Bartholomew Dias, Portuguese explorer, was the first European to sail around the southern tip of Africa and reach the Indian Ocean. He was the first European to reach the Cape of Good Hope, and his voyage opened up a new trade route between Europe and Asia.

1458. King Matthias Corvinus, the first Hungarian to be crowned king of Bohemia, was a powerful and influential ruler of Hungary. He was a military leader and a patron of the arts, and his reign was a period of great prosperity and power for Hungary.

1492. Christopher Columbus, born in Italy, was the first European to reach Cuba and inspired others to explore the New World. He was sponsored by King Ferdinand V and Queen Isabella I of Spain. Columbus's voyage opened up a new world of exploration and discovery.

1498. Savonarola, religious and political reformer, established a republic in Florence during the Renaissance. He was a powerful and influential figure in Florence, and his reforms helped to establish a new era of political and social reform.
