**RRS JAMES CLARK ROSS**  
Celebrating 20 years since her maiden Antarctic voyage

For twenty years, the Royal Research Ship James Clark Ross has supported the British Antarctic Survey's scientific and logistical operations in Antarctica. Named after Admiral Sir James Clark Ross, R.N., she was launched by Her Majesty Queen Elizabeth II on the 1st December 1990 and sailed for her maiden Antarctic voyage on 26th October 1991.

25th ANNIVERSARY OF THE CORONATION 1953

The Black Bull of Clarence was offered to Her Majesty through the Young Edward IV, son to the Duke of Clarence and his daughter Elizabeth, wife of the first Duke King Henry VII. The Emperor Penguin, one of the world's most accessible birds, appropriately represents the British Antarctic Territory itself.

**Oceanário de Lisboa**

*Sempre Aberto*

O Oceanário de Lisboa, a "Jóia da coroa" da Expo '98, foi visitada, desde a sua abertura, em 1998, por mais de 8 milhões de pessoas, que mergulharam no maravilhoso mundo marinho, surpreendendo-se com a visão exaltante de 16.000 seres vivos pertencentes a 400 espécies. Concebido pelo arquitecto norte-americano Peter Chermayeff, o Oceanário de Lisboa desenvolve um papel relevante no progresso científico da Biologia Marinha e das Ciências do Mar e partilha com a comunidade escolar, através do Programa Educativo, a sua acção na crescente sensibilização das crianças e jovens para o reconhecimento da responsabilidade da humanidade na defesa e conservação do meio oceânico.
